Culture **Visits, Dialogues and Exchanges**
Digital **OurBetterWorld.org**

SIF Volunteer-Driven Development Model

IVCO
SENEGAL 2022

The SIF's model of volunteer-driven development ensures sustainable positive change through:

Ownership

- Support the UN SDGs
- Co-created with host partners and volunteers
- Address real needs

Impact

- Individual
- Organisational
- Sectoral
- Societal

Social Capital

- **People-centred development approach**
- **Friendships** that volunteers form **across cultures** can **strengthen ties and trust** and positively impact development outcomes

Partnership

- Public, private and people partnerships
- Leveraging the expertise and resources of multiple stakeholders to advance common goals

Impact of Community Connections & Network from Pivoting

IVCO
SENEGAL 2022

Survey - A mix of close and open-ended questions, 120 participants, 15 volunteers, 5 different projects in 4 countries (India, China Vietnam and Indonesia).

Participants

- **Divided** about the usefulness of online workshops in **building cross-cultural understanding.**
- **Affirmed** the usefulness on online workshops In **inspiring and bring people to collaborate for good,**

Volunteers

- **Divided** about how they as e-volunteers can foster **mutual understanding and relationship** with and amongst the participants on the online space
- **Affirmed** e-volunteering to be still useful in allowing volunteers to continue to **connect and collaborate for sustained change.**

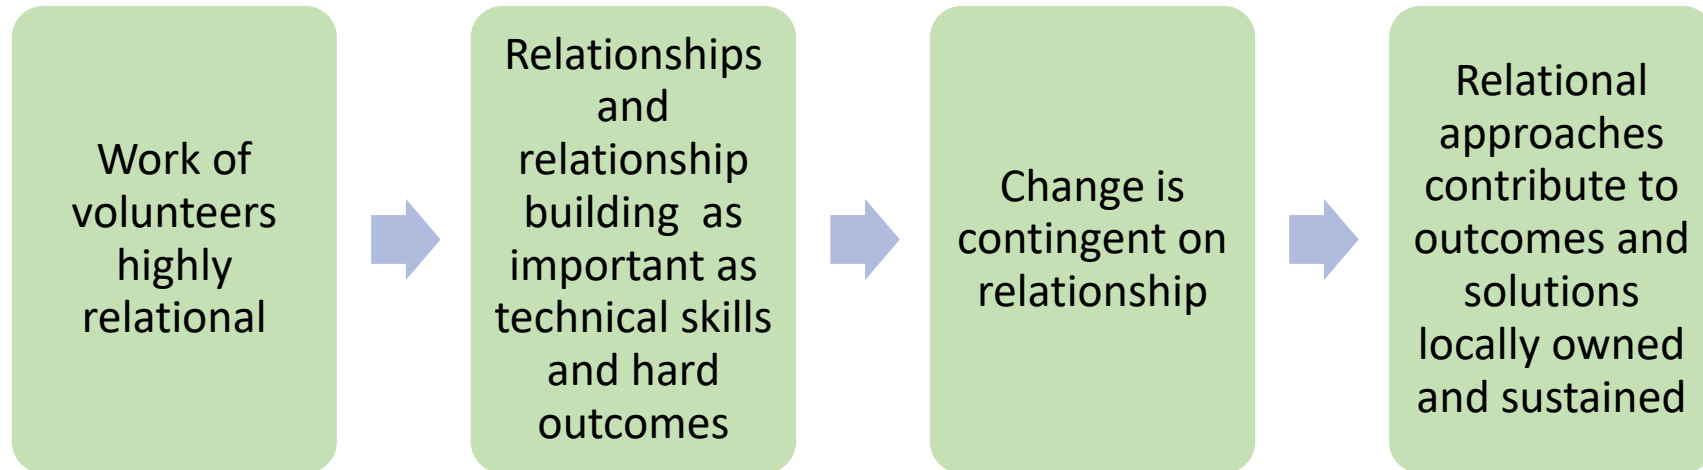

Online workshops and e-volunteering did pose a challenge to **cross-cultural and mutual understanding** and **relationship building** even though it was **useful as a modality to bring people around the world together in spite of the pandemic.**

Valuing Volunteering

SENEGAL 2022

Source: Valuing Volunteering - The Role of Volunteering in Sustainable Development, Institute of Development Studies & VSO, 2015,

New Digital Landscape

IVCO
SENEGAL 2022

- Accelerated the adoption of digital technology but surfaced digital divide and readiness
- Digital Readiness Index 2019 - many countries in Asia scored below the average worldwide score on overall digital readiness 11.9 (out of 25)
- Future of work is digital, careers in **digital services** (as well as healthcare and education) among the fastest-growing in Southeast Asia.
- [UN Secretary-General's Roadmap for Digital Cooperation](#) - ensuring **digital inclusion** for all and strengthening **digital capacity building**
- The SIF launched **new E-Volunteering programme**, focused on building capacity in digital skills and leveraging tech for social good.

DigiLABS and Climate Hack

IVCO
SENEGAL 2022

Virtual Engagement

100% online to upskill youth and working professionals in Asia with digital skills for the digital economy

Digital Skills

Digital skills for the digital economy – Coding, Rapid Prototyping, Data Science, Digital Marketing, AI, Cyber Security etc.

Application

Ideate, develop tech-driven solutions to address social and global issues + soft skills building

E-Volunteering

E-Volunteers

New pipeline of e-volunteers - content developer, trainers, mentors, judges, moderators, speakers etc.

Digital Champions

Network of Digital Champions in using technology for social impact

People-Centered Elements

IVCO
SENEGAL 2022

<p>1. Blended learning approach – 1-2 hrs self-paced learning + 2 hrs live tutorial session with e-volunteers every week, 8-14 weeks per module.</p>	<p>5. Learning experiences - project building and group work to develop participants' soft skills set and their understanding of global citizenry and social innovation frameworks.</p>
<p>2. Mentors and industry experts assigned to teams to help teams apply their new digital skills, sharpen project ideas, digital solutions and prototypes further to solve real world issues,</p>	<p>6. Diversity and inclusion – higher marks given to teams with mixed nationalities team members</p>
<p>3. Strategic engagement sessions - to enhance intercultural understanding and deepen new friendships e.g. virtual Singapore tour, fireside chats, open mic sessions etc</p>	<p>7. Learning Management System (LMS) to enhance e-volunteering experience and engagement with the participants through gamification</p>
<p>4. Community engagement tools - Discord, Gather Town and LinkedIn were used for participants to share and exchange ideas, find support, build network and form community of practice.</p>	<p>8. Digital Champions - building and leading a Community of Practice and leading a Digital Skills Deployment work group.</p>

Digital Tools Used

Community Engagement Tools

Feedback from Participants

IVCO
SENEGAL 2022

More than **70 e-volunteers** engaged
600 participants from 17 countries with digital skills
More than **100 digital prototypes** and **20 passion projects** developed

Social Impact – could apply their new knowledge and skills to create digital solutions to address real-world issues and to help their own community

Social Capital – could learn together, exchange ideas, understand each other's cultures, form network and connection with like-minded peers from around the world

Overall score on the usefulness of the E-volunteering programme in **building cross cultural understanding, networks and bringing people to collaborate for good** was comparable to the score obtained pre-COVID, where all our programmes was done face-to-face - **87% vs 91%**

Post-workshop survey - 318 respondents (163 DigiLABS, 155 Climate Hack)

Learnings

- a) Use of technology to create **breadth and depth of programme. Technology opens up to wider market reach, allows programme scalability, ease of volunteering and makes learning accessible.**

- b) **Relationship** on the online space takes time to build. Need to be deliberate in fostering the human connection. Use interesting community building platforms and tools and having joint learning experience helps.

- c) **Scaffolding** - need to pace and provide volunteers, participants and programme partners sufficient time to be familiar and confident in using digital tools. Constant upskilling is key.

- a) **Partnership** –consider **cross-sectoral partnerships** and how volunteers and organisations can add value and be the new source of financial and human support.

*Example - **SAP** introduced their low code no code technology during the hackathon part of Climate Hack and their employees volunteered to provide their technical expertise as mentors and judges to the teams.*

IVCO
SENEGAL 2022

Technology is best when
it brings people together.

Matt Mullenweg

The people who create **technology** are interesting but perhaps not so much as the people who see its potential in a wider context. It is those people and their ideas and insight, who end up **changing the world**.

Connect with Us

The screenshot shows the homepage of the Singapore International Foundation. At the top left is the logo with the text "Singapore International Foundation for a better world". A navigation menu includes "OUR WORK", "OUR COMMUNITY", "LATEST", "ABOUT US", "GET INVOLVED" (highlighted in orange), "CONTACT US", and "LOG IN". The main banner features a photo of two men shaking hands, with the headline "Bringing World Communities Together To Do Good" and the subtext "Connecting Communities | Enabling Collaborations | Effecting Change". A "GET INVOLVED" button is centered below the text. On the right side of the banner, there is a vertical sidebar with the word "SINGAPORE" written vertically, a QR code, and three small text boxes: "PROTECTING PROSPERITY", "PUBLIC PARTICIPATION", and "HELP OF THE HOUR". At the bottom of the banner is an orange bar with the website URL "www.sif.org.sg".

Posted on March 9, 2014 by Fasoranti Damilola

The air we breath doesn't get a pay cheque from us neither does the sun receive allowances. How then have they survived centuries and many generations? I presume they understand the power of selfless giving and volunteering.

Curiosity + Action.

Dear Mr. Damilola Fasoranti,

For the 2015 kanthari training program we have received many applications from all over the world. The selection process was thorough and it was a challenging task to select the best possible candidates. On behalf of BWB-kanthari I am happy to share the good news that you are being admitted as a participant for the next kanthari training course which will start on the **4th May 2015** and will last till the **20th of December 2015**.

BWB-kanthari will support you with a scholarship. This scholarship includes;

A Scholarship.

I really love the work Prickle does and wanted to be a part of it when I joined as a Professional Mentor. Lol. The journey has been great and I still look forward to more. I've had great opportunities and the team has helped me exercise some skills.

-  **Adam Abdulraheem** @Adamprofile · Jul 9, 2020
Replying to @PrickleAcademy
I became part of Prickle Academy few months after it was found in 2016, first as a partner organization (Afon Volunteers Initiative) then I upheaved into becoming a key stakeholder and full team member. #AskOurChampion

My journey with Prickle Academy can be sum up into “Growth and Impact” because I joined the organization early in my career. Most of my growth and most significant impacts has been with the organization and the team. #AskOurChampion

In Summary

IVCO
SENEGAL 2022

If you forget everything I have said, remember these 4 tools:

I - intentional with those phones.

V - volunteer with, for, with and on purpose.

C - curious about free tools for Nonprofits (e.g Techsoup, Superhive)

O - Organize with Trello, Asana + Google packages.

Discussion

IVCO
SENEGAL 2022

1. Is technology a bridge or a divider to establishing relationships in the volunteer space?
2. How does technology expand the reach and inclusiveness of volunteer programmes?
3. What technology tools are you using to support the volunteer, community, partnership experience?
